3. Charles Parker of the Bureau of the Budget called in connection with our proposed Presidential Directive exempting the Agency from certain provisions of the Government Employees Training Act. Mr. Parker said their legal office had raised the question in connection with our proposed exemption from section 2(4) of the Act. They feel that this section is not an operative portion of the Act and therefore our exemption from it is not necessary. Mr. Parker was advised that this section, which states as a matter of policy that the Civil Service Commission, under the direction of the President, will be responsible for the coordination and promotion of Government training programs and operations, was the precise policy from which we wanted exemption. Mr. Parker was also advised that it had been out understanding that the Bureau had reviewed our original proposal and in their letter of 17 September 1958 had called attention to any items in which they disagreed. Parker attempted to explain this on the basis that the Executive Order function had been transferred to the legal office and hence they were also reviewing our proposal. Emphasis was placed on our strong feelings concerning this legislation. Mr. Parker said he would pass our reaction on to their legal office.
